THE "HAPPY BURMAN."

The Burmese are remarkable for conteutedness and happiness of temperament. Probably they are the gayest and most light-hearted people in all the world, but they are also abnormally preed—Europeans will say ridiculously conceited—in one respect. They are Buddhists and their faith teaches them that for that reason alone they are far above all other races. They have also a very strong inherent conviction about their own superiority. As a mat-ter of fact the Burmese have many grave defects of character. They are incorrigibly idle and slovenly and im-provident, and they are inveterate gamblers; but there is something in the me them the kindly sympathy of Eumoreova the kindly sympathy of Eu-particular "Jack Burman" is a great favorite, Among the man' is a great particular "Jack Burman" is a great favorite. Among the many virtues that the Burmese possess are courtesy, tolerance, gentleness and a certain public spirit which, in the past, has permitted the native rulers of the country to leave many public works, such as the construction of the roads and bridges, etc., to the care of private individuals imbued with a spirit of self-sacrifice.—London Standard.

MARINE LOYD CHILDS TO

The Promotion Committee made an The Promotion Committee made an important move yesterday at the regular weekly meeting when they acceded to the request of J. F. Morgan, chairman of the Alaska-Yukon Exposition

Mr. Childs has been doing great work in Southern California and has made will also give direct connection with the Hawaiian Islands famous there. It the two steamers plying between Poget is almost entirely due to his indefatignent ports and the Hawaiian Islands.

Higher Rates to Orient.

The Hawaiian Islands famous there. It is almost entirely due to his indefatignable efforts that the Transpacific yacht race took place this year and the Promotion Committee feels that he will be carrying on the same good work in Seattle that he has done in the south and is the right man for the place.
It was decided that H. P. Wood

was presented by H. Christian but was not accepted as yet as the committee is still open to receive designs.

It was decided to print another edi-tion of the folder "Hawaii, a Primer." after the same has been revised and brought up to date in every way.

Those who were present at the meeting were W. D. Brown, chairman; W. A. Bowen, G. F. Bush, J. McLean, R. H. Trent and H. P. Wood. Secretary's Report.

The regular report of Secretary Wood

After conferring with your chair After conterring with your chair-man, Mr. W. E. Brown, I wrote to Mr. E. A. Mott-Smith, superintendent of immigration, asking if we might place our maps, folders, etc., on file in the office the Board of Immigration pro-poses establishing in New York and am pleased to report the receipt of the following answer:

following answer:

"I am in receipt of your favor of today's date asking that the Hawaii Promotion Committee may have the privilege of keeping matter, samples of which you have furnished, in the office proposed to be opened by the Board of Immigration in New York Ctiy under charge of Mr, Trenor, and also asking of the paper, and that they go as witnesses to the excention that they go as witnesses to the excention of the paper, and that they take Mr.

The matter for our map and guide to the sland of Oahu is now in the hands of the printer and will, I think, prove to be one of the most valuable publications the committee has issued. I hope to have it finished early next

week.
In order to complete the series, Mr.
H. E. Newton is now at work, during
his spare moments, on the maps of the
other islands.
Following Oahu, I will be prepared
to submit the matter for the Hawaii
folder. One side of the folder will
be taken up with an accurate map of
the big island; on the other side, in
addition to statistical and descriptive
matter, we will have an excellent map matter, we will have an excellent map of Kilauea, showing as well, location of Volcano House, trails, roads, etc.

The Maui folder, in addition to the map of the twin islands, will also carry a good map of Haleakala, giving ele-vations, trails, etc.

The Kausi folder will also be com-plete. The maps in every instance will be made to scale and will be thoroughly up to date.

The whole party, except the Queen,
then crossed the hall to President hall to President Dole's office, now the Governor's of-fice, and presented the abdication to him. This was the first knowledge of the abdication, up to that time no one except those mentioned having any in-

formation concerning it.
The Chief Justice said it had been stated in a book published concerning the matter, that the legal adviser of the Republic (meaning himself) had been appealed to to draft the applica-tion, and that the Queen had never seen it until it was presented to her, and insinuation was made that there was some underhand work in connec tion with it. He could only say that he was not the legal adviser of the government; that what he had recounted were the circumstances of the matter,

The Chief Justice said he would be very glad to do so.

The changes from Hartwell's first draft are very few. In one section a change is madeso that the Queen six she acts for the interest of the Hawaiian people, instead of for the incrests of the Republic of Hawaii, as the original had it. Another section the original had it. Another section is cut out entirely, one in which she makes her abdication final and irrevo cable. The meeting last night was held a the University Club and was very large by attended. In opening the meeting President Carter gave some outline of the work in Hawaiian bibliography which has been done by Mr. Howard Ballon. His bibliography of Hawaii containing the titles of thousands of books in which reference is made to Hawaii, is shortly to be published by the Congressional library. Mr. Ballou is also engaged in the preparation of a list of the books and pamphlets pub-lished in the Hawaiian language. The number of these runs into the thou sands, and is a surprise to everyone who learns of it for the first time.

Growing out of his research in these lines Mr. Ballon has collected an im mense amount of material concerning the early history of the mission press in Hawaii, and he rend a paper on that subject.

Mr. Ballon's paper went very min-utely into the beginnings of printing in these islands, and traced the work of the mission press which was the only press for many years. In his re-search in this matter Mr. Ballou has discovered a number of quaint and valuable publications of the early days in the archives of the Hawaiian Board
